

Kids Campus Early Learning Center Family Computer Codes

As a part of our safety and security measures, we have an electronic form of attendance through the front desk computer. This allows us to view who dropped off/picked up and what times. Your child will need to be clocked in every morning upon arrival and clocked out every evening upon departure.

Any person that we will dropping off and/or picking up your child(ren) on a regular basis (as least once a week) will need their own Personal ID Code and Personal Passcode. Both the ID code and the passcode can only be numbers (no letters or symbols) and must be between 4-8 digits in length. If an ID code or passcode that you have chosen is already in the system, the office will change accordingly. Please let us know if you have any questions.
